ADVICE TO CLOSED BUSINESSES

Test Your Alarm -

ensure it is monitored, fully operational and contacts are up to date

Identify Vulnerable Areas -

try and fix these. Ensure gates, bollards and fire exit doors are secured prior to closure.

Ensure Doors Are Closed and Locked when not in use.

Key Holders -

make sure you have list of key holders.

Staff Contact Details -

ensure they are up to date.

High Value Items -

consider moving these items into secured stockrooms and/or ensure they are out of view.

Keys -

don't leave any keys inside the premises.

Lighting -

consider timer switches/ensure sufficient lighting is left on at the premises/surrounding area.

Prevent Arson -

ensure there are no combustible materials left in the proximity of the building such as packaging.

CCTV -

Is it operational? Are cameras covering key areas? Can you view remotely?

Cash On-site -

Ensure that no cash is retained on the premises overnight. If you have to leave cash on site store then in a security accredited safe bolted to the floor - check coverage with your insurance company.
